King of Bacon 3 er Pressgitter set

The pressgrids are intended for all pressed products. Mostly will be used in the cooked and raw ham manufacturing, but also in the salami- or cheese production.

The pressing effected by means of press bolts with springs laterally mounted on the base grid and a spring holder attached to the upper grid, transmitting the pressing force, and in these case compresses the two grids of the top and bottom. The between press grid in the three grid set, allow to press depending on product requirements twice the amount!

These grids can be used as 2 or 3 press grid set, as base grid with upper grid or as a complete set, consisting of a base, between - and upper grid in standard smoke trolley 90 x 90 cm or 100 x 100 cm are used.

Optional is also our new Quick-locking device available.
